Digital Introduction:

This question will be answered on the discussion board. Remember to create a thread and then respond to a thread created by a classmate. Each discussion question is worth 20 points.

Discussion Question: Digital Introduction

Part I.
Introduce yourself without the use of words. Hmmm… how can you do that? Provide a photo that answers the following three questions. (The photo does not have to be an actual photo of you)

1. Personality Trait – The picture should convey your personality.
2. Hobby – The thing that you like to do most.
3. Important part of your life – Maybe it is a pet, friend, or place, something that helps describe you.

Part II.
View threads created by your classmates. Take a guess as to what their pictures convey. You may only respond and comment on the three questions in part 1. For example, take a guess on their personality, hobby, and important part of their life. You should post your responses on at least two of your classmate's threads.

Part III.
Wait a few days before explaining your photo to your classmates. If no one has responded to your thread, don't explain your picture until a few people do. This is meant to be a fun introduction. If you do not have access to a camera or do not wish to place your own photo on the discussion board use a picture that you feel answers one of the three questions about you. If you choose to be Jennifer Aniston – that is fine but make sure that you can explain why she best represents you. Also, if you are choosing your own image please type two words: self portrait. If you choose a photo of someone other than yourself make sure to give it a title.
