Sea otters hold hands when they sleep so they don’t drift away from each other.
The `<img>` element is used to add images to a web page.

You must always specify an `<src>` attribute to indicate the source of an image and an `<alt>` attribute to describe the content of an image.
SUMMARY

You should save images at the size you will be using them on the web page and in the appropriate format.

SUMMARY

Photographs are best saved as JPEGs; illustrations or logos that use flat colors are better saved as GIFs.
