Learner Agency

- Teacher profiles
- Personal learning path and playlists
- Tracking progress
- Digital teaching portfolios
Competency-based Learning

Powerful, Personalized Professional Learning

A collection from Dana Sparkman, Ph.D. Some of the most effective professional development involves being a part of how adults learn, and involving teachers in creating, presenting, and choosing their own PD. In this collection, you will learn about these important topics. Presented in four ideas in this collection offering from Capella University's Pew Center for Digital Education, program and the Sonia platform to deliver learning around this competency.
