December 5, 1968

Senator Fred R. Harris  
United States Senate  
Washington, D. C.

Dear Senator Harris:

Just recently the town of Lone Grove has applied for a loan with the Farmers Home Administration. The purpose of this loan is to furnish a sewer system for our town.

We expect our community to grow due to industrial expansion in the city of Ardmore. In fact, new houses are being built now, and this increases our need for a sewer system.

Members of the Board of Education have asked me to express their interests in getting such a project in our community. We need improved sewage disposal at our school site. We are making long range plans for increased buildings and we feel that such a loan would not only help the city of Lone Grove but that it would help the entire community in that we could offer a better school plant.

Mr. Harris, I am sure that I speak for the entire community when I say that any recommendation that you could make for us would be greatly appreciated.

Sincerely Yours,

  
Albert G. Steele  
Superintendent
